

ScreenLabs Movieframe Fixed Frame Screen

Movieframe Fixed Frame is an aluminium frame screen for Home Theatre and Professional applications. The frame surface can be chosen between static spurs spreading and static flocking in order to be elegant and durable. The new design Movie Frame offers a matt white surface, with a black velvet finish to the 80 mm frame. The fixing mechanism ensures the screen to be completely flat and easy for installation.

- Available in Square (1:1), Video (4:3) and Widescreen (16:9) format
- Matt white viewing surface
- Aluminium alloy frame
- Anodized Aluminium frame and Velvet Aluminium frame available
- Easy for installation
