

# Rollerwall

## Manual wall/ceiling Projection screen

Superb quality manual pull down projection screen by ScreenLabs, designed exclusively for AVM.

Rollerwall screen is a manual projection screen with a fiberglass matt white surface, housed in a new design white square steel case. Provided with four mounting points on each endcap to ensure that the screen is firmly fixed to the wall or ceiling. With a new robust design, it presents 3 cm black borders to all sides (4 cm on 244 cm wide screens). There are 25 cm additional black leader on 16:9 and 16:10 formats.

- Available in Widescreen (16:9), Video (4:3) and Square (1:1) formats.
- Surface options include matt white, high contrast grey, acoustically transparent and rear projection.
- Unique self-lock device makes easy operation
- Usable in seconds. Just pull down the screen
- Flexibly adjusted to any height as needed
- Universal mounting bracket with endcap making installation easy whether it is mounted on a wall, suspended or recessed above the ceiling
