He just updated the system while getting a cup of coffee.

Make it easy for your employees to extend the lifetime of your systems.

MediaSuite lets you install new Android versions on your existing TV making it future proof.

She just cut TV channel costs in half with customer insights.

Monitor how guests and customers make use of your TV. Find out how often specific channels are watched and tailor your offer to the customers need. Saving costs along the way.

He just beat the highest score on the hotel TV.

Keeping your customers entertained and satisfied is key. With MediaSuite they can directly access the Google Play store to download high-quality apps, including games!

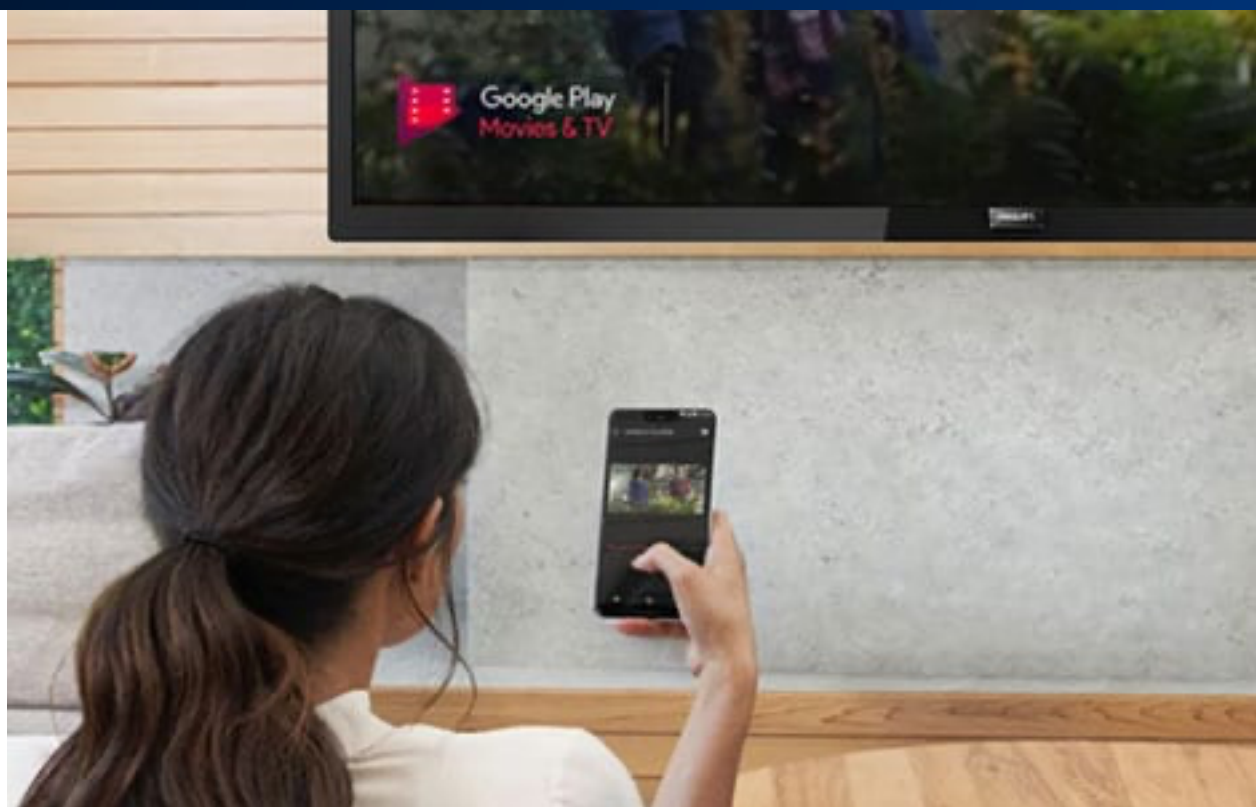

They just left a 5 star review before even leaving the room.

Make sure your guests don't forget to review their experience. Use the instant customer satisfaction survey content option to collect valuable feedback before

your guest has even checked out.

Discover all features

Chromecast Built-in

Built-in Chromecast enables the wireless casting of movies, presentations, and more from smart devices to Android powered Philips TVs. Users simply tap the Chromecast icon on their smart device to start streaming content from hundreds of cast-enabled apps, with their smart device becoming the remote.

Powered by Android

Android-powered Philips Professional TVs are fast, versatile and easy to navigate. The TVs are optimised for native Android apps and you can install web apps directly to the display, too. Automatic updates ensure apps stay up to date.

Google Play Store

One-touch access to the Google Play Store means it's easy to add apps, games, music, movies, and more to your Philips Professional TV. Google Play Store is Google's official on-line platform featuring Android apps for Android devices.
